

Base data form for energy audit

This form is intended to be downloaded and used for offline base data collection

Case reference*

Reference will be used in all communication about the case

Flow control method* Throttling/valve control or On/off control

Pumping system Static Head meters

Monitoring start date*

Please estimate if not fixed yet

Motor and Pump
Make, model

Motor Power* kW Motor Voltage* V Motor Current* A Motor Speed * rpm
nominal, full load rpm Motor Power Factor * cosφ

Pump Power kW Pump Head meters Pump flow rate m3/h
nominal *nominal*

Please let us know any additional information like what the pump is doing and the purpose of the audit
Process description, purpose of the audit, schedule

During the site visit, please collect any additional information like equipment photos, name plate photos, pump curves or process charts. We will contact you separately through email once you have submitted the web form request.

For submission of the data please go to <https://viimatechdigital.com/energy-audit-report/>
